Project Manager Software

What's new in version 4.3d

In our continuing effort to provide the smartSMS-NET users with the best possible experience, a new version of the smartSMS-NET Project Manager software is available.

Version 4.3d includes many new features.

As always, you can download the latest version of the software using this link:

https://www.softdb.com/software.php?smartSMS-NET

New Firmware

- Improvements on WiFi connectivity and reliability.
- Improvements on mobile app responsivity.
- Bug fix causing the controller to be not detected by Project Manager software.
- Bug fix preventing the use of spaces in WiFi SSID.
